

Indian Chapter of International Hepato Pancreato Biliary Association

Certificate Course in Hepato Pancreato Biliary Surgery

7th – 11th August 2019

Jawaharlal Institute of Postgraduate Medical Education and Research

Pondicherry

Course Report

The certificate course in Hepato-Pancreato-Biliary Surgery under the auspices of IHPBA, Indian chapter was held from 7th - 11th August at JIPMER, Puducherry, India. The course was organized by the Department of Surgical Gastroenterology at JIPMER.

Participation

43 selected delegates and 33 faculties participated in the course. There were 24 national faculties and 9 faculties from JIPMER.

Faculty

Dr Rakesh Aggarwal, Dr Chirag Desai, Dr R Surendran, Dr V Tom Cherain, Dr Shivendra Singh, Dr Jagdeesh Singh, Dr Kannan Tirou, Dr B.H Srinivas, Dr Smita Kayal, Dr Shaliesh V. Shrikhande, Dr Anand Khakhar, Dr Peush Sahni, Dr SK Mathur, Dr Sonal Asthana, Dr TD Yadav, Dr Joy Varghese, Dr VK Kapoor, Dr SS Sikora, Dr Viniyendra Pamecha, Dr Anil K Agarwal, Dr Biju Pottakkat, Dr Amit Goel, Dr S Kumaravel, Dr Mohan N, Dr H Ramesh, Dr. Krishna Kumar G, Dr Philip Joseph, Dr Sandip Chandrasekaran, Dr Prashanth Ganesan, Dr G Shrikanth, , Dr R Kalayarasan, Dr Senthil.G

Course programme

Daily schedule started at 08.30 am and ended by 07.00 pm although the scheduled time was 05.30 pm. The participants had a very interactive session and had their doubts cleared with the course faculty. The course content included lectures, guidelines discussions, radiology/operative pictorial image discussion, case scenario discussion and Problem oriented discussion and interactive sessions. Course was divided into five days with each day allotted to following titles. Each day, selected faculties co-ordinated the discussions.

Day 1- Liver- Imaging diagnosis of liver lesions, malignancies, operative strategies, Benign liver lesions, palliation etc. were discussed.

Day 2- Liver transplantation and portal hypertension- Brain death certification, Transplant Law, Deceased organ retrieval, Acute liver failure, Donor evaluation, recipient operation, radiology, portosystemic shunts, Portobiliopathy, Budd-chiari syndrome, Hilarcholangiocarcinoma relevant anatomy, decision making and operative strategies etc. were discussed.

Day 3- Gall bladder and bile ducts- Bile duct injury, bile duct strictures, Benign biliary diseases, cancer gall bladder and cholangiocarcinoma, extended cholecystectomy, imaging/interventions etc. were discussed.

Day 4- Pancreas- Acute pancreatitis, scoring systems, operations for chronic pancreatitis, resections in carcinoma pancreas, adjuvant therapies, interventions, PNET, Cystic lesions of pancreas, Pancreatoduodenectomy etc. were discussed.

Feedback: HPB Certificate course JIPMER 2019

1. Things which you liked the most

Session on liver

Class on pancreas

Extent of discussion

Almost all important that topics were covered by the excellent faculty.

Covered almost all the area of interest

Dr Shailesh sir lecture

Case discussions

Highly interactive

Well organised program

Details in each topic

Panel discussions

Very interactive sessions.

Pancreas session

Everything was perfect.. interactive sessions were really charming.. faculty was great.

Thorough and extensive coverage of HPB by esteemed faculty including clearing all our doubts patiently.

Interactive sessions, case scenarios

Scientific program.

Given time for every candidate to clarify their doubts.

Lectures, hospitality

Presentations of the faculty

All

Liver Radiology, NCPH, case discussion part

Most of the things

Interactive session

The panel discussion with eminent faculty

Interactive sessions with several teachers..

Case discussion.

Discussion in the moderation sessions

ImagiG

All the presentations and Interactive panel discussions

Coverage of the topics, also liked the fact that most of the forms were online and easy to use and particularly the app based test was fun

Scientific content

Vibrant discussion

It is comprehensive and practical and high yield courses delivered by experts in the field

Feedback: HPB Certificate course JIPMER 2019

Long lecture with all latest papers and organised well

Lively interaction with the faculty

Topics, time given for discussion,

Interactive session

2. Your opinion about the scientific content

Good

Good interactive course

Very good and updated

Great

It was really good

Appropriate

Very good

It was informative

Well structured and planned

Good

Almost entire HPB topics covered. Evidence based - Excellent.

Nice.. but little more video may make interesting

It's well planned

Excellent

Very good and informative

Excellent

Inspiring, informative,

very good

Good

Very good. Informative

Good

Very good and more useful for us

Good topics with good faculty discussing it

Need more videos and photographs for operative techniques and procedures

Excellent feast of knowledge

Excellent

Very Good

Up-to-date, recent publications were shown by many professors which would be useful from exam point of view

Feedback: HPB Certificate course JIPMER 2019

Was high with evidence and extensive coverage of the topics
Very good
Good
relevant and evidence based
Very good
No comments ,according to me (since I'm general surgeon)topics were well selected and discussed
good and helpful
Exam oriented which is helpful

3.Things which didnt meet your expectation

Session on pancreas
None
None
Was hoping for a wet lab
At be covered some more theory aspect and few. More topics
None
everything was good
About liver transplantation
pediatric topics
Nothing
Even more case discussions
Nil
nothing
May be more video content s and how I do it lectures on operative techniques
No course material
Nothing
nothing
Anatomical aspects
Little bit more video contents
Nothing
Timing of each session. It will be good if all session was on allotted time.
more case scenarios
Sir , I feel like three days will be good... Some of the benign topics may be skipped... It's my humble opinion...
Some faculty who could not be in person for the certificate course
Conduct of last exam could've been better

Feedback: HPB Certificate course JIPMER 2019

Surgical perspective .how to perform .step by step. This should b more interactive session s.
Liver resectional techniques
Nothing
Food quantity
Few topics which could have been covered like indeterminate biliary strictures which would have been more useful than a biliary atresia lecture..
Paediatric topics
Nothing
Not sure
Time management but its expected in any meeting
I think every thing was more then what I expected ,only thing is if the power point slides of the presenter could be given it will b nice .
Exam
Nothing

4. Things which you would want us to improve
Session on liver transplant
Time management
Everything was good
Almost everything was good, food was little spicy
Can provide some study material along with course in the end
Telemedicine should not be a part of programm
Time management
Punctuality
Nil
Timing
Everything was good
Nil
Nothing special
Just maintain it ..it's perfect.. look forward to more courses like this one.
May be give us some course material beforehand. Choledochal cyst could have been dealt by a Surgical gastroenterologist
More of videos in the lecture sessions
video contents
more interactive sessions would be more effective
Can Add some video contents. how i do it programmes

Feedback: HPB Certificate course JIPMER 2019

Add video content
Better keep the timer for each session
Nothing
More Case discussions
More panel discussions
nothing
All topics was good, Keep the same
Imaging how to read in centers like us where much teaching is not there it would have been helped us
Instruction for Interdepartmental consultants to stick to surgery related material, less content.
More Case discussions and videos could be included
Most of the slides were going out of the projection area.. could have been looked into
More stats
Nothing
Time allocation more time to common conditions
More videos and break monotonous
This was my 1st HPB CERTIFICATE COURSE and I really enjoyed from day one till last day ,I wish to participate every HPB course in future ,special thanks to Dr Biju sir for organising smooth program .
none
Nothing

5. Topic which you liked the most in the course
Session on biliary diseases
Pancreas
Discussion about doubts
Pancreas
Liver
Liver transplant in toto and pancreatic anastomosis
NCPH
Pancreas
Topics covered by prof Shailesh, prof Sadiq,prof Biju
Case discussion
Pancreas
Image based discussion
Pancreaticoduodenectomy

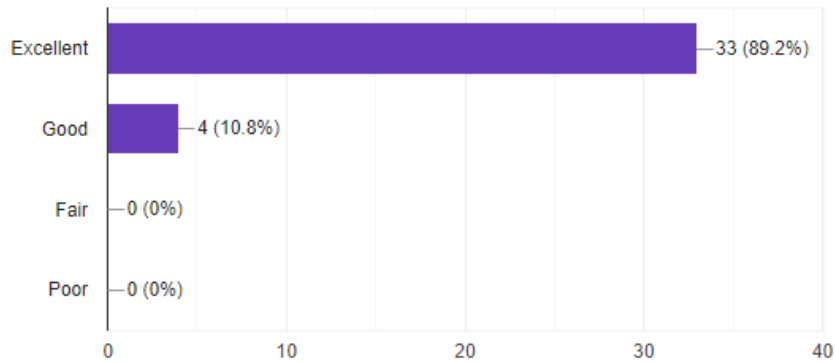

Feedback: HPB Certificate course JIPMER 2019

Pancreas liver gall bladder
Carcinoma Gallbladder
Bile duct and pancreas
Benign liver tumours Interpretation of preoperative imaging and it's relevance in mamangement. Incidental GB cancer Mirzzi syndrome Panel discussions
Sadiq sir's Lecture on Mirizzi and necrotising pancreatitis
Incidental carcinoma gall bladder
Videos
NCPH,Case discussion part
Bile duct , acute pancreatitis
Pancreatic ca, surendran sir class Hcc Chemotherapy in hbp
Neuroendocrine tumor pancreas
Pancreatic and biliary topics
BDI. CA pancreas liver transplant Hcc
Pancreatic necrosectomy
Bile duct n GB
BR-Pancreatic adenocarcinoma
Both of Ramesh sir s class
Bile duct injuries and cholangioCa CA pancreas
Biliary stricture
First day courses liver and biliary topics and approach to CBD stones
MI liversurgery - Shrikanth Incidental cholecystectomy- Vinay Kappoor Shilesh shrikande lecture and Kalaiarasan sir robotic in hpb
Acquisition of liver & lesion using MRI/CT Surgical pathology of solitary liver lesion . Interpretation of LFT in hpb disorder. Cystic lesions of liver . Benign liver tumors. Incidental gall bladder cancer management. Xanthogranulomatous cholecystitis. Mirrizzis syndrome Bile duct injury detection . Acute pancreatitis assessment Optimal evaluation in periampulary /pancreas ca . Neoadjuvant therapy in HPB surgery
Mirizzis, gallbladder cancer
Panel discussions
